PROFESSIONAL SUMMARY

Results-driven **Data Analyst** with hands-on experience in **Power BI, SQL, Python, Excel, and AI-driven analytics**. Strong background in dashboard development, ETL processes, KPI analysis, and business reporting. Certified in **AI tools and AI-assisted SQL**, with prior banking domain experience supporting data-backed decision-making. Actively seeking Data Analyst roles to deliver actionable insights and optimize business performance.

CORE SKILLS

- Data Analysis & Visualization
 - Power BI (DAX, Power Query, Power Pivot)
 - SQL (MySQL, SQL Server concepts)
 - Python (Pandas, NumPy, Matplotlib, Seaborn)
 - MS Excel (Advanced formulas, Dashboards)
 - ETL & Data Cleaning
 - KPI & Business Metrics Analysis
 - AI Tools for Data Analytics
 - Financial & Sales Analysis
-

CERTIFICATIONS

- **AI Tools & ChatGPT Workshop** – Be10x | Issued: December 29, 2025
 - Data analysis using AI, presentation automation, AI-assisted coding & debugging
 - **SQL Using AI Workshop** – AI For Techies | Issued: January 4, 2026
 - AI-assisted SQL querying, data extraction, automation, and business insights
-

PROJECT EXPERIENCE

AI-Powered Financial Dashboard – Power BI

- Built an interactive finance dashboard to track KPIs, trends, and variance analysis
- Used AI visuals such as **Decomposition Tree, Anomaly Detection, and Forecasting**
- Enabled self-service analytics for stakeholders, reducing reporting time

Real-Time Weather Live Dashboard – Power BI

- Designed a real-time dashboard showing current conditions, 3-day forecasts, AQI, and environmental metrics
- Integrated API-based live data for dynamic insights

Mobile Sales Store Analytics Dashboard – Power BI

- Analyzed sales KPIs including total sales, quantity, transactions, and average price
- Delivered insights by brand, model, city, payment method, customer ratings, and trends

Bank Loan Application Analysis – Excel Dashboard

- Created an interactive Excel dashboard to analyze loan approvals, interest rates, and DTI ratios
- Provided insights by loan purpose, term, employment length, and geography

Online Book Store Data Analysis – SQL

- Analyzed customer and sales data using complex SQL queries
- Identified revenue trends, top-selling books, and customer preferences

Diwali Sales Data Analysis – Python

- Cleaned and analyzed sales data using Pandas and NumPy
- Visualized trends using Matplotlib and Seaborn to uncover customer behavior patterns

PROFESSIONAL EXPERIENCE

More than **5 years of comprehensive experience in the field of teaching**, accompanied by a **Bachelor's degree in Information Technology Engineering**. Proficient in **data analysis, statistical analysis, hypothesis testing, and customer behaviour analysis**. Demonstrated success in **leading impactful projects, mentoring learners**, and applying analytical thinking to solve real-world problems.

EDUCATION

Bachelor of Engineering (Information Technology)

M.A.I.E.T., Jaipur – Rajasthan University filecite turn0file2
